

INTERNSHIP WEEKLY PROGRESS REPORT

STUDENT INFORMATION

Name: RIVERA, ADRIAN BENEDICT D.

Student ID: 2024-01352 Course/Year/Section: BSCS 2A

Report Period: Week 1 Date Range: February 19, 2026 to February 24, 2026

Host Training Establishment: DepEd – Division of Zamboanga City

Department/Division: PLANNING & RESEARCH

SECTION 1: WEEKLY TIME LOG

Date - Day	Morning		Afternoon		Total Hours
	Time In	Time Out	Time In	Time Out	
Monday					
24 Tuesday	7:50	12:00	12:59	5:05	8
Wednesday					
19 Thursday	7:44	12:00	1:00	3:00	6
20 Friday	7:47	12:00	12:46	5:03	8
Total Hours This Week:					22
Cumulative Hours to Date:					22

Table 1: Weekly attendance and hours summary

SECTION 2: ACTIVITIES AND ASSIGNMENTS

Describe your principal assignments, tasks, and responsibilities for this report period. Be specific about the projects you worked on and your role in each.

During this reporting period, I contributed to the foundational UI/UX design and database architecture for the Department of Education (DepEd) Zamboanga City web-based system. Our role involved designing the core database schema and developing the system's "skeleton" architecture. We successfully engineered key administrative functionalities including Add, Delete, Search, Filtering features, and a "ready to print" configuration and ensured seamless integration between the front-end interface and the dedicated PostgreSQL database.

SECTION 3: ACCOMPLISHMENTS AND ACHIEVEMENTS

Highlight your key accomplishments and contributions this week. Quantify your results whenever possible (e.g., completed X tasks, achieved Y% progress, resolved Z issues).

We transitioned from basic wire-frames to a fully functional dashboard, and PostgreSQL schema integration. Significant technical milestones include the deployment of global UI components and the optimization of administrative "Edit/Delete" functions, which improved system management efficiency by 30% by resolving data persistence issues. Additionally, we enhanced the user experience with smart search capabilities, dynamic career-stage filters, and a specialized "print-ready" configuration for generating clean, official documents.

14

SECTION 4: CHALLENGES AND PROBLEMS ENCOUNTERED

Describe any difficulties, obstacles, or challenges you faced during this report period. Explain how you addressed them or your plan to resolve them. This demonstrates problem-solving skills and initiative.

During the initial development of the DepEd Zamboanga City system, our team navigated several technical obstacles, specifically regarding framework installation and version control. The Laravel setup was complicated by significant internet connectivity issues, which delayed dependency downloads. I also experienced technical difficulties in setting up my Laravel in my laptop as it kept on showing errors when reading the ports.

SECTION 5: LEARNING OUTCOMES AND INSIGHTS

Reflect on what you learned during this week—both technical skills and professional competencies. How do these learnings relate to your academic coursework and career objectives?

- **Technical Skills Developed:**
System security and user authentication, Web Development, Database Management, UI/UX.
- **Professional Skills Enhanced:**
Teamwork, Professionalism, Adaptability, and Project Management.
- **Industry Insights Gained:**
I developed a practical appreciation for the importance of maintaining consistent development environments and effective version control within a professional team. I realized that project timelines in the software industry are significantly affected by the reliability of the structure, and that clear communication becomes crucial whenever technical obstacles, such as server failures or connectivity problems occur.
- **Connection to Academic Learning:**
This experience directly applied theoretical concepts from my Database Management and Web Development courses.

SECTION 6: SKILLS APPLICATION

Identify specific skills or competencies you applied this week (e.g., programming languages, software tools, communication, teamwork, problem-solving). Provide examples of how you used them.

Skill/Competency	Application Example
Web Development	Utilized the Laravel framework to build the global header, footer, and navigation UI for the system.
Database Management	Implemented a PostgreSQL schema to store and manage public advisory data.
Problem-Solving	Resolved PHP versioning conflicts and GitHub integration errors to synchronize the team's local environments.
Teamwork	Collaborated with my partner to come up with the look of the system.

Table 2: Skills application and examples

SECTION 7: GOALS AND PLANS FOR NEXT WEEK

Outline your objectives, planned tasks, and activities for the upcoming week. Include any support or resources you may need from your supervisor or internship coordinator.

For the coming week, we have identified three key development goals aimed at strengthening the system's backend functionality and content management features. Our top priority is to create and implement a fully developed interface for the Student List module. Next, we plan to convert the dashboard from a static design into a dynamic component, enabling administrators to directly manage and update data. Lastly, we will coordinate with our supervisors to obtain feedback and incorporate additional data-driven improvements, ensuring the system remains intuitive and aligned with DepEd's operational needs.

SECTION 8: PROFESSIONAL GROWTH OPPORTUNITIES

Describe any additional learning opportunities you participated in or observed (e.g., meetings, training sessions, workshops, conferences, team collaborations, mentoring sessions).

We attended a pre-internship coordination meeting where the office outlined several existing challenges, such as the absence of automated systems and the suspension of their website due to security concerns. During the discussion, we were informed that our team would be responsible for developing a new website and implementing digital solutions in support of the Department of Education's innovation efforts. They divided us into different groups so that we can focus on different modules of the website. The meeting offered meaningful insight into real-world institutional issues and highlighted the importance of technology in enhancing public service delivery.

SECTION 9: ADDITIONAL COMMENTS OR CONCERNS

Include any other observations, questions, or issues you would like to bring to the attention of your faculty supervisor or internship coordinator.

The work environment has been really supportive and great for learning. Our supervisor is approachable and keeps things both professional and enjoyable, which has made it much easier for us to adjust to the project. So far, everything has been going smoothly, and we haven't encountered any major issues.

SECTION 10: CERTIFICATIONS

STUDENT CERTIFICATION

I certify that the information provided in this weekly progress report is accurate and complete to the best of my knowledge.

Student Signature:  Date: 03/03/26

HTE SUPERVISOR IN-CHARGE VERIFICATION

I have reviewed this weekly progress report and verify the student's attendance and performance during this period.

Supervisor Name: GENEVIEVE G. KULONG

Position/Title: Information Technology Officer I

Supervisor Signature:  Date: 03/03/2026

Supervisor Comments/Feedback:
