

INTERNSHIP WEEKLY PROGRESS REPORT

STUDENT INFORMATION

Name: RIVERA, ADRIAN BENEDICT D.

Student ID: 2024-01352 Course/Year/Section: BSCS 2A

Report Period: Week 2 Date Range: March 3, 2026 to March 6, 2026

Host Training Establishment: DepEd – Division of Zamboanga City

Department/Division: PLANNING & RESEARCH

SECTION 1: WEEKLY TIME LOG

Date - Day	Morning		Afternoon		Total Hours
	Time In	Time Out	Time In	Time Out	
Monday					
3 Tuesday	8:00	12:00	1:00	5:00	8
Wednesday					
5 Thursday	8:00	12:00	1:00	3:00	6
6 Friday	8:00	12:00	1:00	5:00	8
Total Hours This Week:					22
Cumulative Hours to Date:					44

Table 1: Weekly attendance and hours summary

SECTION 2: ACTIVITIES AND ASSIGNMENTS

Describe your principal assignments, tasks, and responsibilities for this report period. Be specific about the projects you worked on and your role in each.

Throughout this period, I focused on ensuring that administrative data collection is accurate (duplicate blocking), traceable (GIS/coordinates), and user-friendly (interactive maps and real-time validation). I was the one who implemented the interactive map for easier access to the schools.

SECTION 3: ACCOMPLISHMENTS AND ACHIEVEMENTS

Highlight your key accomplishments and contributions this week. Quantify your results whenever possible (e.g., completed X tasks, achieved Y% progress, resolved Z issues).

I developed the CensusController with strict unique validation logic for school IDs and names to ensure data integrity. Additionally, I integrated Leaflet.js for interactive mapping, authored a "Manual Type" override protocol for coordinate precision, and implemented a real-time "Live Checker" for duplicate detection. To protect the registry, I established a secure decommissioning system with a double-confirmation modal, all while maintaining a professional administrative interface using Tailwind CSS.

SECTION 4: CHALLENGES AND PROBLEMS ENCOUNTERED

Describe any difficulties, obstacles, or challenges you faced during this report period. Explain how you addressed them or your plan to resolve them. This demonstrates problem-solving skills and initiative.

I successfully navigated several technical challenges while developing the system, including resolving self-reference validation collisions that initially blocked record updates by implementing an exclude id parameter in the CensusController. I addressed user confusion regarding read-only coordinate fields by deploying a "GPS Lock" visual protocol with dynamic status indicators and a "Manual Type" toggle, which transformed the UI with urgency signals to clearly communicate manual override states. Furthermore, I optimized the high-density "Satellite Coordination" block to reduce interface congestion and hardened the system against mass assignment vulnerabilities by replacing \$request->all() with strictly validated data arrays to ensure total registry security.

SECTION 5: LEARNING OUTCOMES AND INSIGHTS

Reflect on what you learned during this week—both technical skills and professional competencies. How do these learnings relate to your academic coursework and career objectives?

- **Technical Skills Developed:**
System security and user authentication, Web Development, Database Management, UI/UX.
- **Professional Skills Enhanced:**
Teamwork, Professionalism, Adaptability, and Project Management.
- **Industry Insights Gained:**
I developed a practical appreciation for the importance of maintaining consistent development environments and effective version control within a professional team. I realized that project timelines in the software industry are significantly affected by the reliability of the structure, and that clear, communication becomes crucial whenever technical obstacles, such as server failures or connectivity problems occur.

- **Connection to Academic Learning:**
This experience directly applied theoretical concepts from my Database Management and Web Development courses.

SECTION 6: SKILLS APPLICATION

Identify specific skills or competencies you applied this week (e.g., programming languages, software tools, communication, teamwork, problem-solving). Provide examples of how you used them.

Skill/Competency	Application Example
Web Development	Utilized the Laravel framework to build the overall look of the system.
Database Management	Shifted to MySQL instead of PostgreSQL
Problem-Solving	How to adapt the interactive map within the system as we were unsure how to do it.
Teamwork	Collaborated with my partner to come up with the look of the system as well as how to implement the interactive map.

Table 2: Skills application and examples

SECTION 7: GOALS AND PLANS FOR NEXT WEEK

Outline your objectives, planned tasks, and activities for the upcoming week. Include any support or resources you may need from your supervisor or internship coordinator.

For the coming week, we plan to include a feature where you can just upload a CSV file so that you don't need to manually input the data for each schools. I also plan to enhance the overlook and feel of the system for a better user experience.

SECTION 8: PROFESSIONAL GROWTH OPPORTUNITIES

Describe any additional learning opportunities you participated in or observed (e.g., meetings, training sessions, workshops, conferences, team collaborations, mentoring sessions).

I learned how to integrate an interactive map within the system using a JavaScript called leaflet as well as how to shift databases since we shifted from PostgreSQL to MySQL.

SECTION 9: ADDITIONAL COMMENTS OR CONCERNS

Include any other observations, questions, or issues you would like to bring to the attention of your faculty supervisor or internship coordinator.

The professional environment has been exceptionally supportive and conducive to learning. Our supervisor maintains an approachable demeanor that balances professionalism with an enjoyable atmosphere, significantly easing our transition into the project. As a result, operations have proceeded seamlessly without any significant setbacks.

SECTION 10: CERTIFICATIONS

STUDENT CERTIFICATION

I certify that the information provided in this weekly progress report is accurate and complete to the best of my knowledge.
