

INTERNSHIP WEEKLY PROGRESS REPORT

STUDENT INFORMATION

Name: RIVERA, ADRIAN BENEDICT D.

Student ID: 2024-01352 Course/Year/Section: BSCS 2A

Report Period: Week 3 Date Range: March 10, 2026 to March 13, 2026

Host Training Establishment: DepEd – Division of Zamboanga City

Department/Division: PLANNING & RESEARCH

SECTION 1: WEEKLY TIME LOG

Date - Day	Morning		Afternoon		Total Hours
	Time In	Time Out	Time In	Time Out	
Monday					
10 Tuesday	8:00	12:00	1:00	5:00	8
Wednesday					
12 Thursday	8:00	12:00	1:00	3:00	6
13 Friday	8:00	12:00	1:00	5:00	8
Total Hours This Week:					22
Cumulative Hours to Date:					66

Table 1: Weekly attendance and hours summary

SECTION 2: ACTIVITIES AND ASSIGNMENTS

Describe your principal assignments, tasks, and responsibilities for this report period. Be specific about the projects you worked on and your role in each.

During this reporting period, my principal responsibilities included integrating a specialized Activity Log Audit System to track "Data Shift" changes in school inventory and implementing a multi-criteria Omni-Search and Filter Protocol to ensure administrative accountability. I also developed a high-density Institutional Report Card generator designed for formal government documentation and integrated geographic verification tools through interactive mapping and GPS re-pinning protocols. Furthermore, I optimized the system's bulk data management by building a CSV Registry Sync feature with built-in conflict detection to maintain data integrity across the division's educational institutions.

SECTION 3: ACCOMPLISHMENTS AND ACHIEVEMENTS

Highlight your key accomplishments and contributions this week. Quantify your results whenever possible (e.g., completed X tasks, achieved Y% progress, resolved Z issues).

This week, I successfully engineered and integrated a professional multi-parameter audit filtering system that enables granular oversight of the institutional registry by administrator, school name, or protocol action. Additionally, I did 60% of identified UI and functional bugs related to the navigation header and real-time satellite verification, ensuring that 100% of manual coordinate overrides now synchronize instantly with the visual minimap. To maximize administrative efficiency, I also implemented audit logs, reducing potential paper waste by consolidating complex data shifts into concise, single-line reports.

SECTION 4: CHALLENGES AND PROBLEMS ENCOUNTERED

Describe any difficulties, obstacles, or challenges you faced during this report period. Explain how you addressed them or your plan to resolve them. This demonstrates problem-solving skills and initiative.

During this report period, managing large-scale school data imports via CSV presented risks of data duplication and name-ID mismatches. I mitigated this by building a Preview Protocol in the CensusController that flags conflicts and mismatches before they are committed to the primary registry. I also fixed bugs with the map coordinates and ensured that only the admin can access the private history logs.

SECTION 5: LEARNING OUTCOMES AND INSIGHTS

Reflect on what you learned during this week—both technical skills and professional competencies. How do these learnings relate to your academic coursework and career objectives?

- **Technical Skills Developed:**
System security and user authentication, Web Development, Database Management, UI/UX.
- **Professional Skills Enhanced:**
Teamwork, Professionalism, Adaptability, and Project Management.
- **Industry Insights Gained:**
I developed a practical appreciation for the importance of maintaining consistent development environments and effective version control within a professional team. I realized that project timelines in the software industry are significantly affected by the reliability of the structure, and that clear, communication becomes crucial whenever technical obstacles, such as server failures or connectivity problems occur.

- Connection to Academic Learning:**
This experience directly applied theoretical concepts from my Database Management and Web Development courses.

SECTION 6: SKILLS APPLICATION

Identify specific skills or competencies you applied this week (e.g., programming languages, software tools, communication, teamwork, problem-solving). Provide examples of how you used them.

Skill/Competency	Application Example
Web Development	Utilized the Laravel framework to build the overall look of the system.
Database Management	Used MySQL as our database
Problem-Solving	How to fully integrate a CSV import feature within the system and removing the bugs that followed
Teamwork	Collaborated with my partner to understand what other features we can implement as well as how to remove potential bugs and errors

Table 2: Skills application and examples

SECTION 7: GOALS AND PLANS FOR NEXT WEEK

Outline your objectives, planned tasks, and activities for the upcoming week. Include any support or resources you may need from your supervisor or internship coordinator.

For the coming week, we plan to enhance the code structure within our systems.

SECTION 8: PROFESSIONAL GROWTH OPPORTUNITIES

Describe any additional learning opportunities you participated in or observed (e.g., meetings, training sessions, workshops, conferences, team collaborations, mentoring sessions).

I learned how to implement a CSV import feature within the system so that the admin won't insert the data one by one and they can just import an excel file/CSV to maximize efficiency.

SECTION 9: ADDITIONAL COMMENTS OR CONCERNS

Include any other observations, questions, or issues you would like to bring to the attention of your faculty supervisor or internship coordinator.

The professional environment has been remarkably supportive and ideal for gaining new skills. Our supervisor's approachable nature successfully balances professionalism with a positive atmosphere, which has made starting work on the project much easier. Consequently, everything has run smoothly without any major problems.

SECTION 10: CERTIFICATIONS

STUDENT CERTIFICATION

I certify that the information provided in this weekly progress report is accurate and complete to the best of my knowledge.

Student Signature: *[Signature]* Date: 03/17/2006

HTE SUPERVISOR IN-CHARGE VERIFICATION

I have reviewed this weekly progress report and verify the student's attendance and performance during this period.

Supervisor Name: GENEVIEVE G. KULONG

Position/Title: Information Technology Officer I
