

INTERNSHIP WEEKLY PROGRESS REPORT

STUDENT INFORMATION

Name: RIVERA, ADRIAN BENEDICT D.

Student ID: 2024-01352 Course/Year/Section: BSCS 2A

Report Period: Week 5 Date Range: March 24, 2026 to March 27, 2026

Host Training Establishment: DepEd – Division of Zamboanga City

Department/Division: PLANNING & RESEARCH

SECTION 1: WEEKLY TIME LOG

Date - Day	Morning		Afternoon		Total Hours
	Time In	Time Out	Time In	Time Out	
Monday					
24 Tuesday	8:00	12:00	1:00	5:00	8
Wednesday					
26 Thursday	8:00	12:00	1:00	3:00	6
27 Friday	8:00	12:00	1:00	5:00	8
Total Hours This Week:					22
Cumulative Hours to Date:					102

Table 1: Weekly attendance and hours summary

SECTION 2: ACTIVITIES AND ASSIGNMENTS

Describe your principal assignments, tasks, and responsibilities for this report period. Be specific about the projects you worked on and your role in each.

During this period, I completely redesigned the user interface, moving away from the basic layout to a professional "white-paper" aesthetic characterized by solid black borders to provide a more institutional feel. On the technical side, I expanded the database architecture and front-end forms to include critical planning metrics such as chair inventory and specific utility connections, including a complex power-supply selection tool for grid, solar, or off-grid specifications. To improve data integrity, I replaced open-ended hazard text boxes with a dynamic dropdown system for environmental risks while maintaining a conditional "Specify" area for unique technical remarks. I also enhanced the data verification logic by adding a "traffic light" indicator system to confirmation modals that automatically flags resource shortages in red and marks sufficient supplies in green to prevent data entry errors. Additionally, I recalibrated the GIS mapping module to display in full color for better geographical context and updated the CSV Import Controller to ensure batch uploads correctly map these new infrastructure fields.

SECTION 3: ACCOMPLISHMENTS AND ACHIEVEMENTS

Highlight your key accomplishments and contributions this week. Quantify your results whenever possible (e.g., completed X tasks, achieved Y% progress, resolved Z issues).

By synchronizing the entire school registry, I made the system 100% compliant with the new data requirements, significantly increasing the efficiency of long-term institutional auditing and resource planning.

SECTION 4: CHALLENGES AND PROBLEMS ENCOUNTERED

Describe any difficulties, obstacles, or challenges you faced during this report period. Explain how you addressed them or your plan to resolve them. This demonstrates problem-solving skills and initiative.

I faced difficulty with UI density on the School Edit and Import Preview pages. Adding new metrics like chair inventory and classroom shortages made the screens feel cluttered and hard to read. I solved this by redesigning the layout into a high-density "Technical Audit" grid, using color-coded "traffic light" indicators (Red for shortages, Green for sufficient) to help administrators quickly identify critical issues without having to read every single number. These solutions not only fixed the immediate technical hurdles but also made the system more resilient and user-friendly for future updates.

SECTION 5: LEARNING OUTCOMES AND INSIGHTS

Reflect on what you learned during this week—both technical skills and professional competencies. How do these learnings relate to your academic coursework and career objectives?

- **Technical Skills Developed:**
System security and user authentication, Web Development, Database Management, UI/UX.
- **Professional Skills Enhanced:**
Teamwork, Professionalism, Adaptability, and Project Management.
- **Industry Insights Gained:**
I gained a genuine understanding of why standardized development environments and disciplined version control are so vital when working in a professional software team. I realized that the success of a project's timeline depends heavily on how reliable its underlying structure is, and I learned that maintaining open, clear communication is absolutely essential the moment technical hurdles like server outages or connectivity issues start to interfere with the workflow.

- **Connection to Academic Learning:**
This experience directly applied theoretical concepts from my Database Management and Web Development courses.

SECTION 6: SKILLS APPLICATION

Identify specific skills or competencies you applied this week (e.g., programming languages, software tools, communication, teamwork, problem-solving). Provide examples of how you used them.

Skill/Competency	Application Example
Web Development	Utilized the Laravel framework to build the overall look of the system.
Database Management	Used MySQL as our database
Problem-Solving	How to fully integrate a CSV import feature within the system and removing the bugs that followed
Teamwork	Collaborated with my partner to understand what other features we can implement as well as how to remove potential bugs and errors

Table 2: Skills application and examples

SECTION 7: GOALS AND PLANS FOR NEXT WEEK

Outline your objectives, planned tasks, and activities for the upcoming week. Include any support or resources you may need from your supervisor or internship coordinator.

For the coming week, we plan to enhance the code structure within our systems.

SECTION 8: PROFESSIONAL GROWTH OPPORTUNITIES

Describe any additional learning opportunities you participated in or observed (e.g., meetings, training sessions, workshops, conferences, team collaborations, mentoring sessions).

I learned that we always have to constantly change things and it is not necessary to focus on one thing.

SECTION 9: ADDITIONAL COMMENTS OR CONCERNS

Include any other observations, questions, or issues you would like to bring to the attention of your faculty supervisor or internship coordinator.

During this period, I found the professional environment to be remarkably supportive and ideal for developing new technical skills. My supervisor's approachable nature successfully balanced high standards of professionalism with a positive atmosphere, which significantly eased my transition into the project. The workflow has remained consistently smooth, allowing me to focus on my assignments without encountering any major obstacles.

SECTION 10: CERTIFICATIONS

STUDENT CERTIFICATION

I certify that the information provided in this weekly progress report is accurate and complete to the best of my knowledge.

Student Signature:  Date: 01-07-2026

HTE SUPERVISOR IN-CHARGE VERIFICATION

I have reviewed this weekly progress report and verify the student's attendance and performance during this period.

Supervisor Name: GENEVIEVE G. KULONG

Position/Title: Information Technology Officer I

Supervisor Signature: _____ Date: _____

Supervisor Comments/Feedback:
